HOW TO DEVELOP GenAI POLICY?

swipe →

ai / strategy

#1

DETERMINE
STAKEHOLDERS

swipe →

ai / strategy

Involve a diverse range of stakeholders from different departments to create a policy **addressing all potential concerns and use cases.**

swipe →

#2

DEFINE POLICY PURPOSE AND OBJECTIVES

swipe →

ai / strategy

Define the purpose and objectives to ensure clarity and responsible use
across your organisation aligned with vision and values.

swipe →

#3

UNDERSTAND RELEVANT LAWS AND REGULATIONS

swipe →

ai / strategy

Stay up to date on legal and regulatory developments and **create internal governance to address use cases.**

swipe →

#4

CREATE AWARENESS ABOUT RESPONSIBLE AI USE

swipe →

ai / strategy

Explain GenAI to non-experts and stakeholders using simple visualisation tools to raise awareness **of its potential, limitations and responsible usage.**

swipe →

ai / strategy

#5

EMPHASISE THE ROLE OF
HUMAN OVERSIGHT

swipe →

ai / strategy

Humans bring ethics, **judgement and intuition** that AI cannot replicate. Highlight the **importance of keeping human-in-the-loop**.

swipe →

ai / strategy

#6

PROMOTE AI TRAINING

swipe →

ai / strategy

Organise regular **training, workshops** and **learning sessions** to keep staff informed about AI's **latest developments and ethical considerations.**

swipe →

#7

COMMUNICATE THE POLICY

swipe →

ai / strategy

Once finalised, communicate the policy to the staff. **Make the policy accessible and provide a point of contact for any questions or concerns.**

swipe →

#8

REGULAR UPDATE
THE POLICY

swipe →

ai / strategy

Regularly revise the policy **to integrate fast-paced AI advancements** and **user feedback**, ensuring responsible AI utilisation.

swipe →

ai / strategy

REMEMBER

Proactive regular policy revision is necessary in order to **incorporate rapid AI developments** and any user feedback to **ensure responsible AI usage**.
